

25 July 2022

Dear parents and carers,

I'm writing to let you know that a person/ people with COVID-19 was on our school site while infectious.

Date positive case/s reported:	25 July 2022
Impacted class/es or year level/s	Any extracurricular activities, including school bus transport
7 Snowy, 2EAL07B, 2FTE07E, 2VCD07D, 2CHI07D 8 Attard, SCI08D	Not Applicable

What you need to know

If your child is not experiencing COVID-19 symptoms, they can continue to attend school, but you should monitor for symptoms.

Students who show symptoms of COVID-19 cannot attend school and should get tested immediately and isolate until they receive a negative result.

Students should continue with twice-a-week rapid antigen testing on school days.

Students who have recovered from COVID-19 do not need to participate in surveillance testing for 12 weeks after their isolation period has ended.

For information on symptoms visit: <https://www.coronavirus.vic.gov.au/symptoms-and-risks>.

For more information on how to get tested visit: <https://www.coronavirus.vic.gov.au/taking-test-covid-19>.

If your child returns a positive RAT result and has symptoms and/or has been in contact with someone with COVID-19, it is very likely that your child has COVID-19.

- You must advise the school and the Department of Health about the positive result
- Your child must stay home for 7 days, and then only leave home once they feel well

Household contacts

Students who are household contacts of a COVID-19 case are not required to quarantine. It is required that that household contacts undertake daily rapid antigen testing five times within the 7 days of exposure.

Students from Grade 3 and above who are household contacts are required to wear face masks when indoors at school. This does not apply to students who have a valid exemption.

If your child returns a positive RAT result during this period, they must stay home for 7 days, and then only leave home once they feel well.

Note: If your child tests positive with a RAT but does not have symptoms and you don't believe they have been in contact with anyone with COVID-19, it is recommended getting a PCR test within the first 48 hours of testing positive and stay isolated at all times until they receive their result.

If your child's subsequent PCR test is negative, they will be able to leave isolation and return to school. If the PCR test result is positive, they must follow the steps above.

Reporting your child's positive test

If your child tests positive to COVID-19 you need to report the positive case by notifying the school in writing or by phone.

You must also report your child's positive test to the Department of Health via the [COVID-19 Positive Rapid Antigen Test Self-Reporting Form](#) or call centre on 1800 675 398.

Further information for languages other than English

- For school information in languages other than English, call TIS National on **131 450**.
- For translated written information about COVID-19, please visit: [Translated information about COVID-19 | Coronavirus Victoria](#).
- Please ask them to call the DET COVID-19 hotline on **1800 338 663** and they will help interpret.
